

**Our Supply Chain Solutions give you
the bigger picture.**

Personally worldwide.

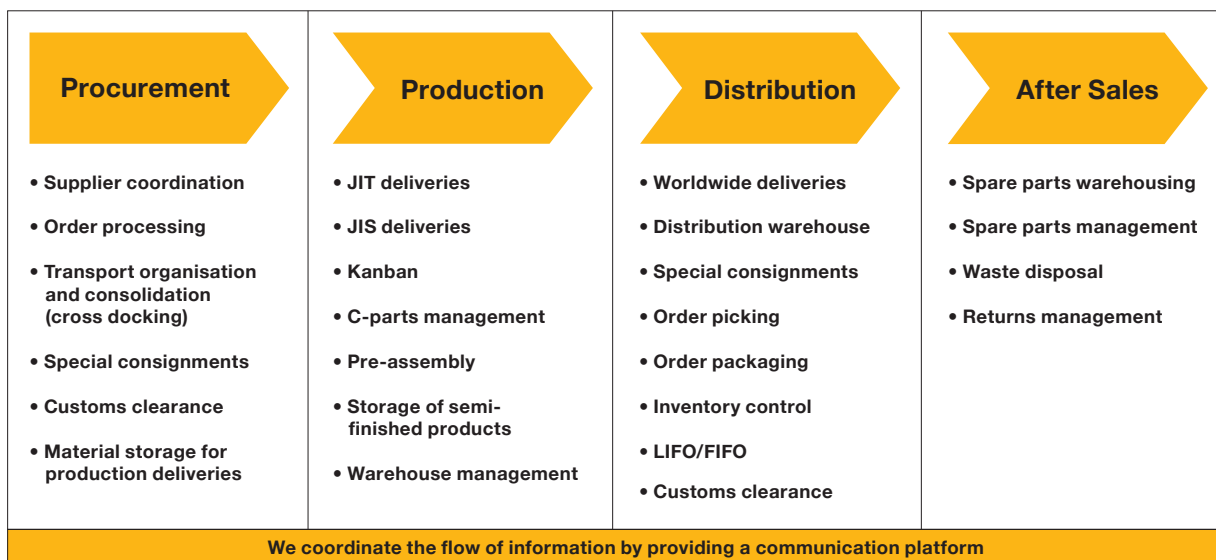

Unlike many of our competitors, at Gondrand we don't try to do everything – just the things we understand. Gondrand's core competencies lie in those sections of the logistics market in which we work. Even when our solutions have been developed for specific markets, we try to adapt functional solutions from all sectors. That way, we create mutual synergies. We will help you increase the productivity and efficiency of your supply chain processes and identify ways of reducing costs.

Your supply chain in focus.

Individual consultations and a detailed analysis of your needs are essential for Gondrand to optimise your supply chain successfully. You can concentrate on your own core competence by entrusting Gondrand with anything from small logistic activities up to the complete administration of your supply chain. Thanks to IT-based processes and system integration, we improve the information flow, which leads to a transparent supply chain and secures a high service level.

The Gondrand Supply Chain Model.

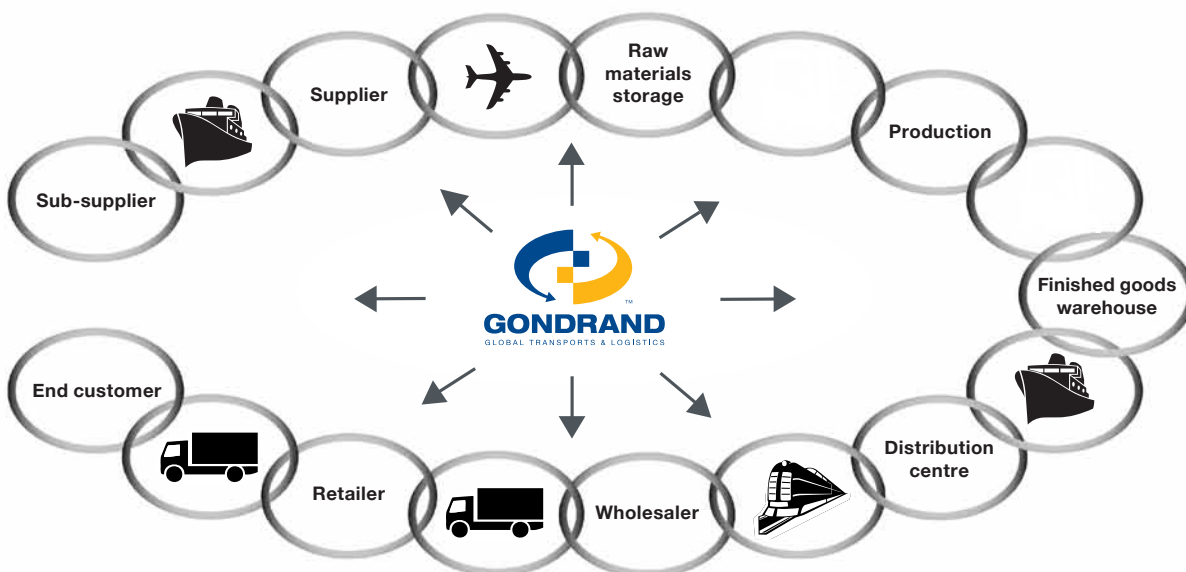

Individual and feasible solutions.

Gondrand Switzerland Supply Chain Management
